

Colourful Cube Addition and Subtraction

Instructions

2 - 4 players

1. Make sure each player has a pencil and paper.
2. The 1st player rolls the cube and chooses a sum from the square it lands on.
3. Next every player works out the calculation mentally and writes the answer on their paper.
The 1st player to get the answer gets 4 points, 2nd player gets 3 points, 3rd player gets 2 points and 4th player gets 1 point **BUT** only if the answer is correct!
4. To check if the answer is correct, the 1st player checks the answer sheet.
5. After that players add their points, using tally marks, to the score sheet.
6. Then the game begins again and the next player rolls the cube!!
7. Note: if the cube lands on the same square and you have answered both calculations then roll again!!
8. The winner is the player with the most points!!
