## Introduction

What would your perfect home look like? Your task is to build a home and persuade someone to buy it. You'll need the power of persuasion and the gift of the gab to succeed!

You will need:

- A variety of material gathered from an outdoor space: sticks, straw, leaves, stones, logs etc.
- a 'buyer' (e.g. soft toy, minibeast)

What to do:

1. Consider your buyer carefully – what would they need in a home? What do you think they'd like? E.g. leaves for a waterproof roof.
2. Build your home – add as much detail as you can.
3. Sell your home! Write a persuasive piece, describing your home and explaining why it is worth buying. Use techniques that we have learnt in class e.g. power of 3, repetition, providing reasons.
